**Key features**

HIPOWER industrial generators are an efficient, reliable and versatile source of power for Stationary Standby or Prime Power Applications.

The Genset features a heavy-duty John Deere 4 cycle diesel engine certified by the Environmental Protection Agency (EPA) to conform to Tier 4 non-road emissions regulations, an AC high capability alternator regulated by a precise Automatic Voltage Regulator controlled and protected by our own auto-start CEM7 control panel available CANBUS communications including a powerful microprocessor and easy user programming. A heavy-duty constructed chassis supports the complete set. The generator is protected by a best-in-class sound attenuated enclosure designed for prime or standby applications.

- Engine - generating set tested to ISO 8528-5.
- The Genset engine is certified by the Environmental Protection Agency (EPA) Tier 4 non-road emissions regulations.
- The brushless, single bearing, 4 poles, 12-wire generator end, with automatic voltage regulator has broad range reconnectability.
- The Genset is CSA certified and is available as UL2200 listed.
- Generating set meets NFPA 110, level 1, when equipped with the necessary accessories and installed per NFPA standards.
- Global product support.
- Operations and maintenance manuals.
- 2 Year Standby Warranty Standard. Extended warranties are also available.

**NOTES :**

- ★ "Ratings definitions & Reference Conditions".
- ★ Performance data refers to ISO 8528/1 Standard Reference Conditions: +25 °C (77°F) air temperature, 100m (3285ft) altitude, 30% relative humidity.
- ★ Standby power ratings do not have an overload capability but can be used for the duration of the utility failure in accordance with ISO-3046/1, BS5514, AS2789, and DIN6271. No overload is available.
- ★ Prime power (Unlimited Running Time) ratings are continuous in accordance with ISO-8528. 10% overload is available for a maximum of 1 hour in 12 hours of operation, in accordance with ISO-3046/1, BS 5514, AS2789, and DIN 6271.
- ★ The ratings may be subject to derate at different operating conditions. Please request Derate Guidelines for other conditions.
- ★ All three-phase units are rated at 0.8 power factor.

## Standard features

### Engine

- Industrial grade Tier 4 John Deere diesel Engine.
- 4 stroke, water cooled, provided with:
- Electric start 12V.
- Radiator with pusher fan.
- Standard water separator not visible level fuel filter . J1939 stop the engine with ECU John Deere.
- Electronic governor.
- HWT/LOP senders.
- Heavy duty 2-stage air filter
- Hot & rotating components (exhaust, fan,...) protections and radiator guards.
- Oil drain hand pump
- Spin type fuel and oil filters.

### Alternator

- Self excited, self regulated alternator.
- Insulation class H, IP23 Protection.
- Automatic Voltage Regulator.
- Vacuum impregnation.

### Control Panel

- Digital microprocessor based control panel with remote start capability.
- CEM7 Auto-start control panel ("DEEP SEA" for UL option)
- **Engine protections:** High coolant temperature **(A)**, High coolant temperature by sensor **(W)**, Low engine temperature by sensor **(W)**, Low oil pressure**(A)**, Low coolant level**(A)**, Unexpected shutdown, Fuel level **(W)**, Stop failure, Battery voltage failure **(W)**, Battery charging alternator failure **(W)**, Overspeed**(A)**, Underspeed**(A)**, Start failure, Emergency stop.

- **Alternator protections:** Over frequency **(A)**, Under frequency **(A)**, Over voltage **(A)**, Under Voltage **(A)**, Over amperage **(A)**, Short-circuit**(A)**, Unbalanced voltage **(A)**, Incorrect phase sequence **(A)**, Reverse power **(A)**, Overload **(A)**.
- **Genset readings:** Voltage among phases, Voltage among phases and neutral, Amperage, Frequency, Apparent power(kVA), Active power (kW), Reactive power (kVA), Power factor.
- **Engine readings:** Fuel level(%), Battery voltage, R.P.M, Battery charge alternator voltage, Coolant temperature (optional) **(1)**, Oil pressure (optional) **(1)**.
- **Digital Metering:** Total hour counter, Partial hour counter, kW meter, Starts valid and Starts failure counters, Maintenance.
- **Communications (optional):** RS232, RS485, J1939, Modbus, CCLAN, Software for PC, Analog modem, GSM/GPRS modem, Remote screen, Tele-signal.
- **Other features:** Alarms history, External start, Start inhibition, Start under EJP normative, Pre-heating engine control, Genset contactor activation, Fuel transfer control, Engine temperature control, Manual Override, Programmable alarms, Genset start function in test mode, Programmable outputs, Magnetic Pick-up control.
- **Multilingual capability**
- Remote Communications to our **RAM7** Remote Annunciator Module.
- **NFPA110** Level Compatible.
- On/Off Switch.
- Emergency Stop Button.

**NOTES :**

★ All the protections are programmable to carry out "Warning Alarm without engine stop" or "Alarm with Engine Stop (with or without cooling cycle)":

★ **(A)** Alarm with Engine Stop.

★ **(W)** Warning Alarm without Engine Stop.

★ **(1)** Sensor installation necessary

Model: HJW 30 T6

## Standard features

### Power Panel.

- Main Line Circuit Breaker for overload protection (CSA, UL and UL-C listed).
- Main bus / Hardwire connection panel with safety protection. (open thermal magnetic protection and alarm)
- Fuel cut-off solenoid and safety switches.

### Electric Equipment.

- Battery charging alternator.
- Gel type, heavy-duty Starting battery(s) installed and connected to the engine include cables and rack.
- Ground connection prepared for ground spike (not supplied).

### Chassis

- Skid with integral day fuel tank. (non UL)
- Fully welded steel skid with forklift pockets and 110% spill containment.
- Chassis ready for mobile kit installation or Extended capacity fuel tank. (see models and mobile kit options).
- Easy access for chassis cleaning and fast draining of fuel tank.
- Vibration isolators between chassis and generator.

### Enclosure

- Sound attenuated canopy made with high quality 11 gauge steel.
- Powder coat paint which exceeds 1,000 hour salt spray test.
- Heavy-duty construction designed for prime or standby applications.
- Stainless steel hardware and fasteners.
- Ultra silent all weather enclosures with Rock-Wool insulation and curved edges with minimum outside fasteners.
- Single eye lifting point.
- Emergency stops (double protection for emergency stop; inside on control panel + external on canopy)
- Door with window to view control panel.
- Easy access to radiator fill through roof on enclosure.

### Exhaust

- Steel residential silencer of -35dBA attenuation, with rain cap. (optional for Open Skid genset versions).

Model: HJW 30 T6

## Optional features

### Engine (optional)

- Water Jacket Heater
- Low coolant level sensor.
- Secondary water separator fuel filter - RACOR type (Decanting filter with water detection kit, alarm signal and shot sensor).
- Heavy duty, three stage air filter with service indicator.

### Alternator (optional)

- Permanent Magnet Generator (PMG).
- Anti-condensation heater

### Electric Equipment (optional)

- Battery isolator.
- Automatic battery chargers.

### Electronics (optional)

- Remote Annunciator Module RAM7 to meet NFPA 110 installation.
- Digital timer.
- CANBUS - LAN, converter.
- CANBUS - USB, converter.
- CANBUS – J1939, converter (series >HJW 85 T6 / HJW 410 T6).
- Communication modules for tele-control.
- Transfer switch and MPS paralleling control panel.
- Multiple remote annunciation options (CAN/USB, GSM, RS232, RS485..).

### Chassis (optional)

- Sub-base UL 142 double wall fuel tanks to customer specification.
- Oil field type skid.

### Trailers (optional)

- Road towing trailers to DOT standards.
